DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 2 and 3 are indefinite because they are not clear what they are intended to cover by "question criteria", "linking transmission parameters of one of the connecting line and the connections" and "links thereof to one another in a network node, and updating the at least one of transmission parameters and link thereof". They appear to be a literal translation into English from a foreign document and they have no clearly defined meanings.
